My experience

My skills

- React, React Native, Vue, Angular. Concretely, almost all fashionable technologies (Typescript only).
- RXJS, Functional Programming: for almost all recent Typescript projects (not just Angular).
- Webpack, Babel, Gulp, Grunt, Git (bitbucket / Gitlab / Github), monorepos (npm/composer package management).
- Unit testing, because this is what makes your work maintainable in the long term!
- Back-End: mainly PHP (raw but more recently Laravel and Symfony). I also created some POCs in .NET Core
- Sass, less, css.

My strength

Self-taught, rigorous, attentive, curious, open, diligent, meticulous, patient.

Hobbies

Team sport (football, mini-football), individual sports (tennis, squash, padel), outings with friends, reading

☺☺ My mother tongue is french, ☹☹
donc n'hésitez pas à me contacter !
